EXPERIENCE

- Well experienced in HTML 5, CSS 3, CSS preprocessor (Sass), Twitter Bootstrap and different CSS frameworks, PSD to HTML, WordPress theme Customization and using jQuery readymade plugins. Working friendly on JavaScript, jQuery, React (UI), Vue (UI).
- Practical working experience in JavaScript and CSS3 web design.
- Able to design any type of template.
- I have real-life experience on Angular, React and also familiar with Vue.js
- Experience in UI frameworks, especially React Bootstrap, Vue Bootstrap, and Angular Bootstrap.
- Developed several projects with Git, Jira, bitbucket and also TortoiseSVN.
- I have worked in the Docker environment and have done several projects.
- I have done a 4 months course on UX (UI) Design from ‘**User hub**’ and also completed another course on Web Development of 4 months duration from ‘**Creative IT Institute**’.
- Completed several projects successfully, PSD to HTML and PSD to Responsive Design. Willing to provide my live demo works, if you want.
- Well knowledge on Adobe Photoshop, Illustrator, XD and also Figma.
- Completed accounting, invoice, inventory, garments ERP, e-commerce projects in my professional period and worked on Angular, React Js and Vue Js UI portions.
- I have experience with Windows and Linux OS also.
- Very curious to learn more to keep myself updated on the Modern Web.
