## Summary:

Creative and results-driven UI/UX Designer with 6 months of experience designing innovative and intuitive user interfaces for web and mobile applications. Strong problem-solving skills and ability to collaborate with cross-functional teams to deliver solutions that meet business objectives and exceed user expectations. Proficient in industry-standard design tools and software. Passionate about staying up-to-date with the latest design trends and techniques. Proven ability to work effectively in a fast-paced and deadline-driven environment.

## Skills:

- User interface design
- User experience design
- Wireframing and prototyping
- Visual design
- Interaction design
- Information architecture
- Responsive design
- Design software (Adobe XD, Figma, etc.)
- HTML/CSS
- Agile development methodologies
- A/B testing
- Analytics and data-driven design

## Experience:

Freelance UX Researcher, Ostad. Limited,

Address: Navana Sylviyana 59, 2 Park Road Dhaka,

As a freelance researcher for Ostad a large live-class learning ed-tech company in Bangladesh, I conducted UX research on a course module and developed new items. This resulted in a 20% increase in student UX knowledge.

- Designed and implemented user interfaces for web and mobile applications that improved user experience and engagement
- Conducted user research and usability testing to inform design decisions and identify areas for improvement
- Created wireframes, prototypes, and final designs using industry-standard design tools
- Worked closely with cross-functional teams including product managers, developers, and stakeholders to ensure that designs meet business objectives and user needs
- Developed and maintained design systems and guidelines to ensure design consistency across multiple products
- Presented design concepts and solutions to stakeholders and obtained feedback for further refinement
- Collaborated with developers to ensure accurate and efficient implementation of designs
- Analyzed data and user feedback to inform design decisions and continuously improve the user experience

#### **Education:**

- HSC in science from Advanced Residential College in 2018.
- SSC in Science from Habirbari Union Sonar Bangla High School in 2016.

#### **Certifications:**

Get Started with Figma

Coursera

Issued Feb 2023

[Credential ID F26YQ767HPPN](#)
