HTML

CSS

JavaScript

**Databases:** MySQL, Postgresql, MongoDB

### Tools & Technologies:

Git

GitHub

Heroku

RESTful APIs

## WORK EXPERIENCE

### OIB (Oasis Infobyte) Internship

January 2024 – March 2024

#### Key achievements:

Acquiring Experience with Real-World Projects: I was able to work on real-world projects that challenged my abilities.

Working with knowledgeable experts, I helped to solve challenging issues and obtained realworld experience in a variety of fields.

At OIB, the practical approach enabled me to apply my knowledge and talents in a useful way.

Collaborative Culture: One of the best parts of my internship was getting to work with gifted people from a variety of backgrounds.

OIB's culture promoted collaboration and knowledge exchange.

Working together on projects and sharing ideas with my coworkers expanded my horizons and enhanced my educational experience.

Constant Learning: At Oasis Infobyte, learning was a major focus.

I gained knowledge about cutting-edge technology and best practices used by the business through workshops, training sessions, and frequent mentorship exchanges.

I was always informed on the most recent developments in the industry because of the company's dedication to staying ahead of the curve.

Accepting Innovation: Oasis Infobyte is an innovative company, and this attitude spread quickly. I have personally seen how the organisation promotes original thought and pushes boundaries in thinking. My creativity was stimulated by the flexibility to experiment with novel concepts, and I learned how important it is to welcome innovation in order to bring about significant change.

#### Responsibilities:

Developing, and enhancing new web pages using a combination of html, css and javascript. Testing that the web page works smoothly.

**Tech stack:**

HTML

CSS

JavaScript
