### EDUCATION

University of Lagos, B.Sc. Computer Engineering

### SKILLS & TECHNOLOGIES

- **Technical Skills** - Wordpress, Flutterflow, Codux
- **Soft Skills** - Teamwork, Collaboration, Continuous learning, Good Communication, Conscientious

### WORK EXPERIENCE

Specialist (Ui Designer & Wordpress Developer) - **Azukart** ([Azukart](#))

[Oct. 2024 - Nov 2024] *Remote*

- I successfully designed the key pages for the website, ensuring a user-friendly interface and seamless navigation to enhance the overall shopping experience.
- Implemented a Paystack-powered checkout system, ensuring a seamless and secure payment process for the eCommerce website.
- Developed a comprehensive form system to facilitate both customer and vendor sign-ups, streamlining the registration process for the eCommerce platform.
- I optimized the eCommerce website for responsiveness, delivering a seamless and user-friendly experience across all devices. Additionally, I utilized the Dokan plugin to enhance the site's multi-vendor capabilities, ensuring a robust and efficient platform for both vendors and customers.

Junior Ui Designer- **Plastic waste Portal** ([PlasticWaste](#))

[Mar. 2024 - Apr, 2024] *Remote*

- Contributed to the design of key pages for the Plastic Waste Portal, a forum website focused on recycling and connecting recyclers. Additionally, I optimized the site's responsiveness to ensure seamless user interaction across all devices.

Graphics Designer- **Disturbing Lagos**

[Jun. 2023 - date] *Remote*

- Designed posters for their events, which significantly enhanced their brand image and resulted in a 30% increase in event attendance.
- Developed a cohesive brand identity for their beverage line, ensuring a strong and recognizable visual presence. Additionally, I designed a monthly playlist cover and promotional poster to effectively inform audiences about the latest music releases, enhancing engagement and brand awareness.
- Translated their festival concepts into compelling visual narratives, creating designs that resonated with the target audience. These visuals were crafted to be highly engaging, leading to an increase in attendee conversion rates.

### VOLUNTEERING

- Active Volunteer for a tech event that had over 1000 attendees (**Google DevFest**).
